

A photograph of two women in a clothing store. The woman on the left is wearing a red jacket and looking at a rack of clothes. The woman on the right is wearing a green sweater and looking at the same rack. In the background, other customers and store shelves are visible.

CUSTOMER SHOPPING BEHAVIOR · EXECUTIVE READOUT

Customer shopping behavior is strong, but subscription is the clearest growth lever

3,900 purchases · 25 products · 4 categories · 50 locations

3,900 purchases reveal a broad, repeat-heavy customer base

3,900

Dataset

purchases across 25 products, 4 categories, and 50 locations

\$59.76

Average purchase

Average review rating: 3.75

3,116

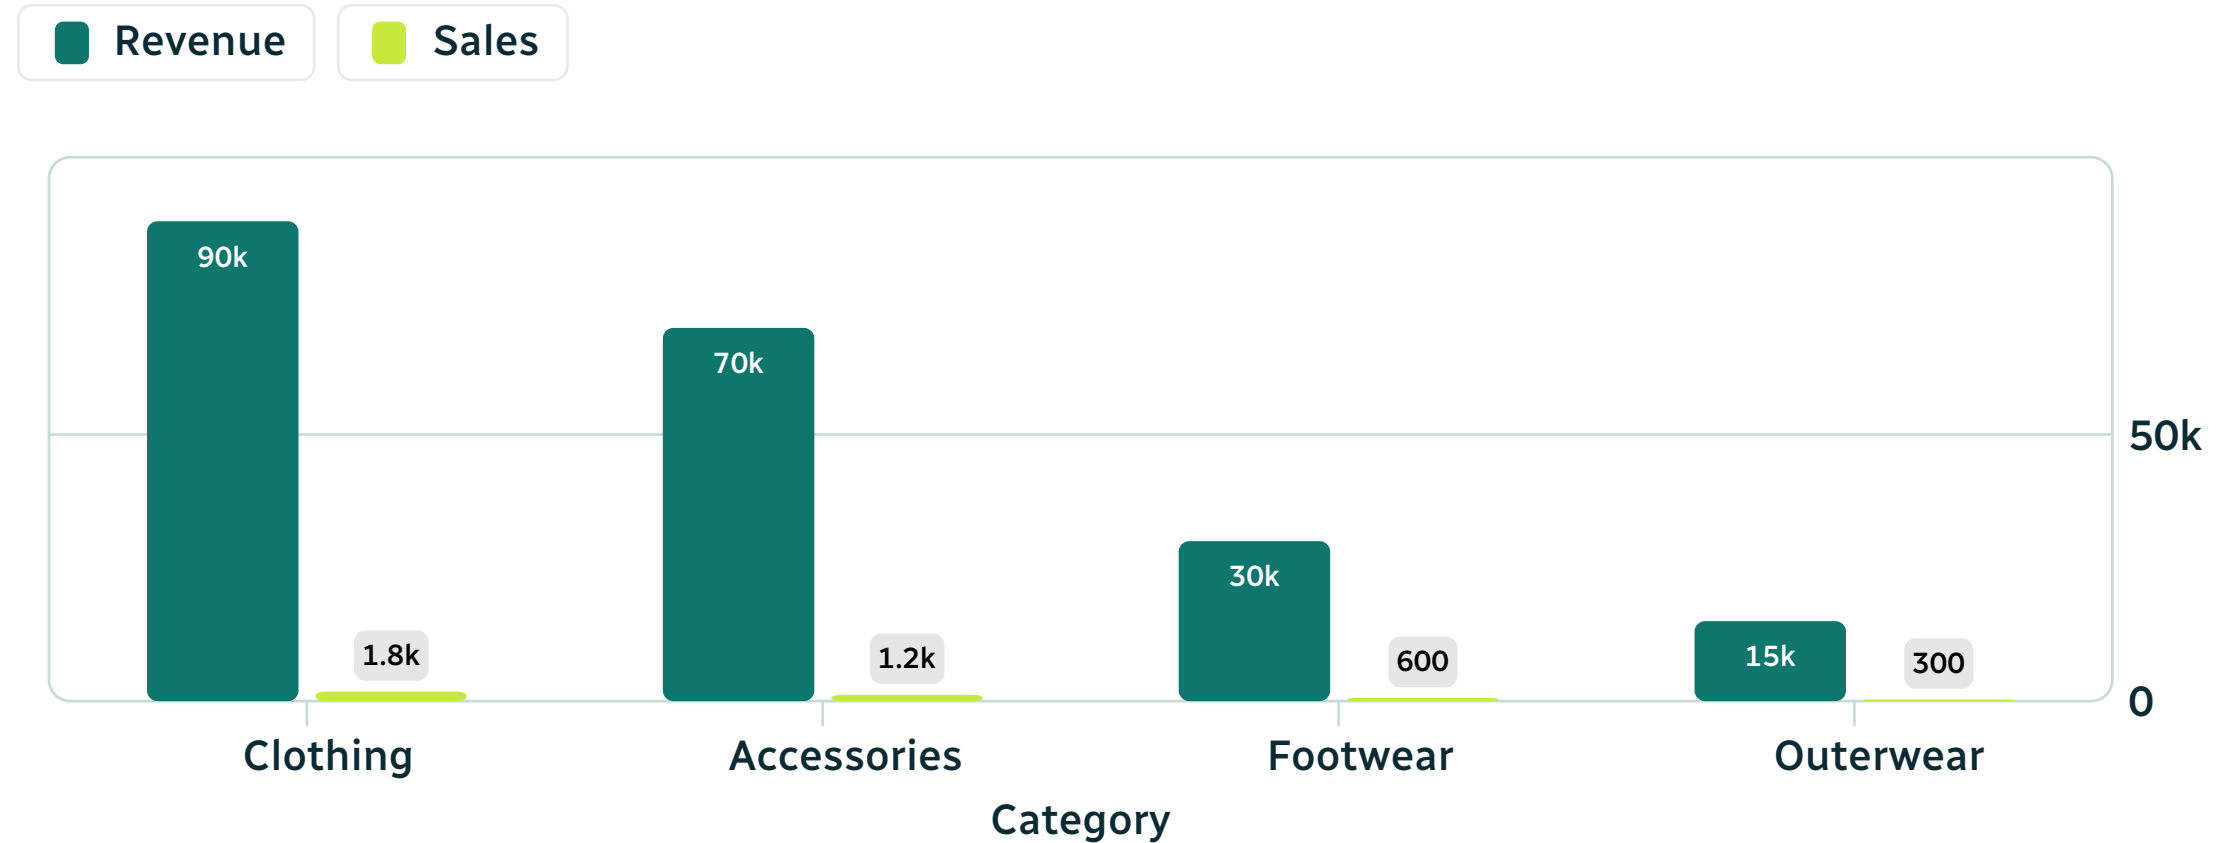

Customer mix

3,116 loyal · 701 returning · 83 new customers

The base is already weighted toward loyal and returning customers.

Clothing and accessories drive the business

Clothing leads revenue and sales volume, with accessories the next-largest contributor.

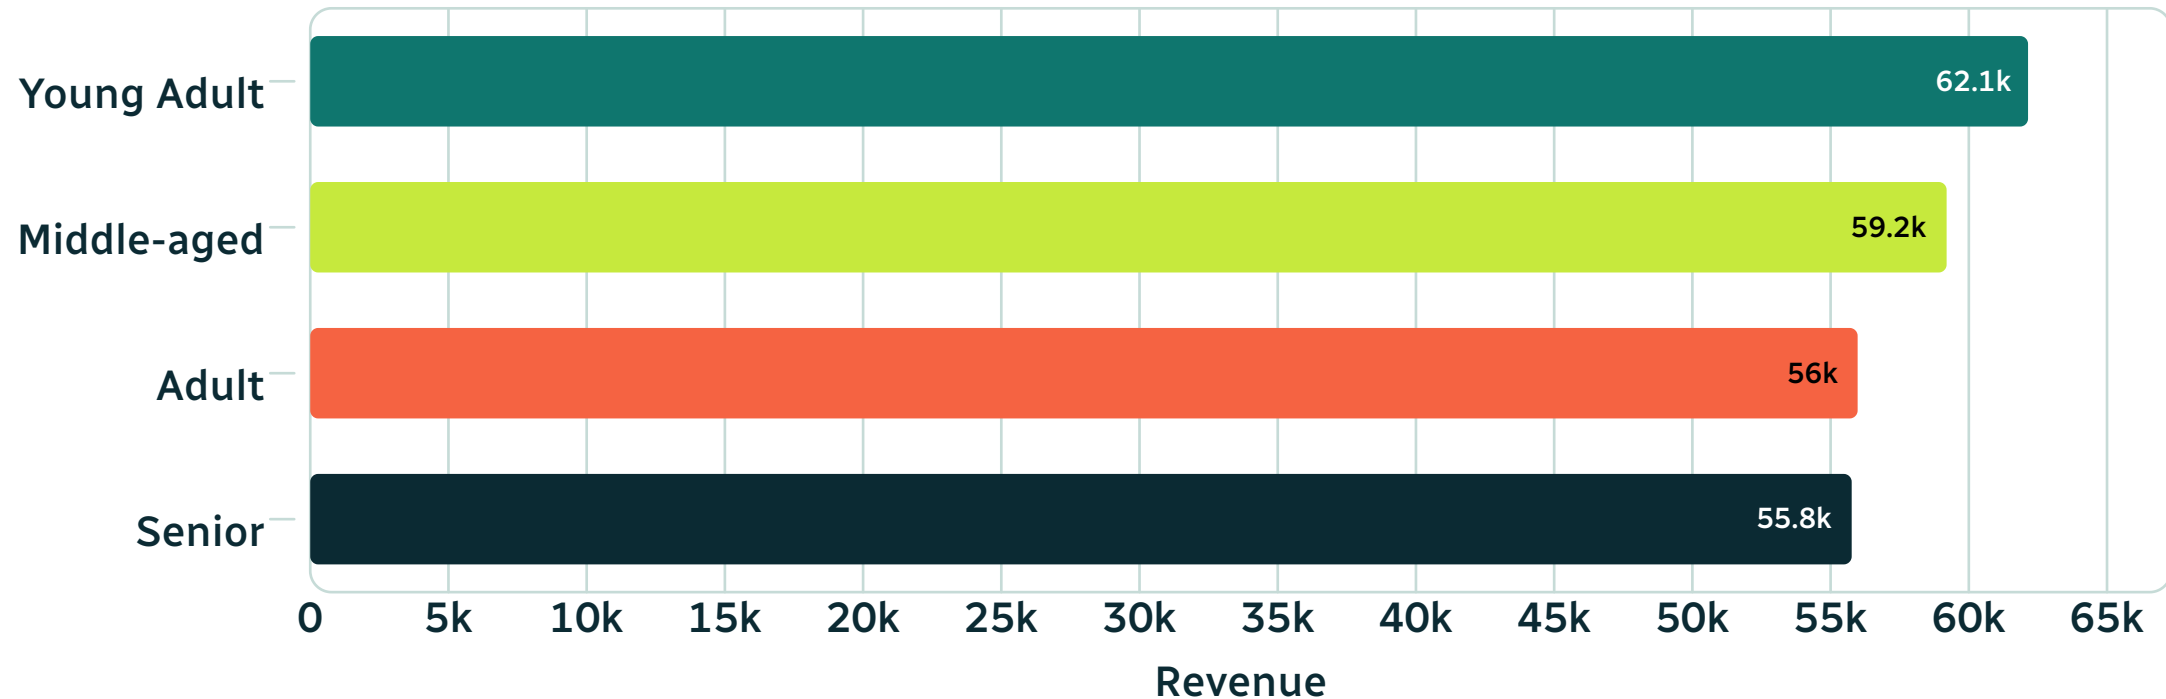

Category performance · Revenue and sales by category

Young adults contribute the most revenue, but all age groups matter

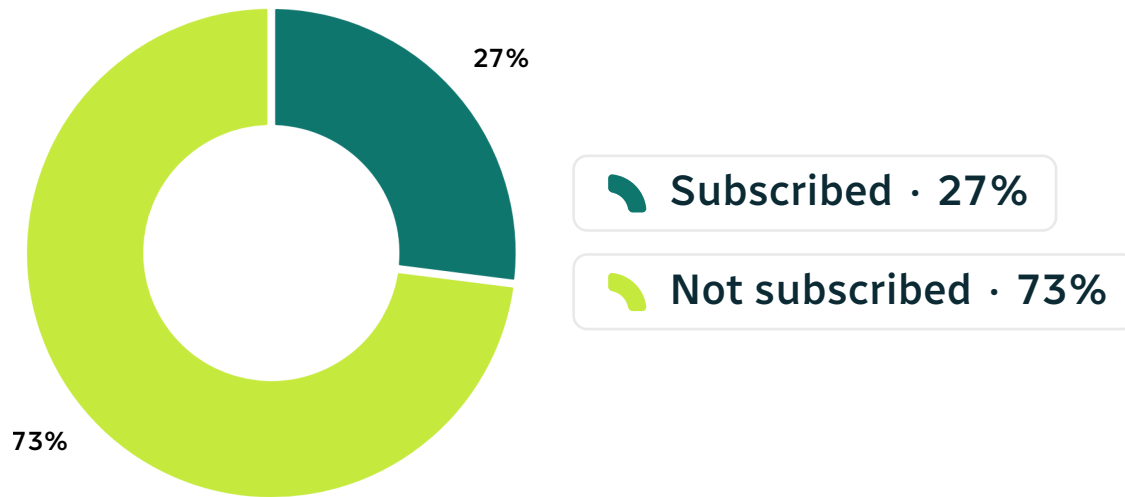

Revenue is distributed across four age groups, with young adults leading and seniors still contributing a meaningful share.

Age group

Revenue contribution by age group

Subscriptions are under-penetrated despite strong repeat behavior

Subscription split

27%

Subscribed

73% are not subscribed.

Revenue

Non-subscribers: \$170,436

Subscribers: \$62,645

Repeat buyers

3,476 customers sit in the returning or loyal segments.

There is a large existing base to convert with clearer subscriber value.

Discounts are concentrated in products that may need margin discipline

Product	Discount rate	Signal
Hat	50.00%	Highest
Sneakers	49.66%	High
Coat	49.07%	High
Sweater	48.17%	High
Pants	47.37%	High

839

High-spending
discount users

Each leads its respective category.

Turn the analysis into four commercial moves

01

Grow subscriptions

Package exclusive benefits around an already repeat-heavy customer base.

02

Reward loyalty

Move returning buyers toward the Loyal segment with targeted incentives.

03

Refine discounts

Test product-level offers and protect margin on discount-dependent items.

04

Target with precision

Prioritize high-revenue age groups, top-rated products, and express-shipping users.

Use the Power BI dashboard to monitor conversion, revenue mix, discount efficiency, and loyalty movement over time.
